

Laser Marking Machine

All-purpose Fiber Laser Marking Machine for metal and non-metal applications. Optimum laser marking system with the lowest operating cost for ultra-precise marking. System can also be customized as per customer requirement and supports various industries for multiple applications.

Features:

- Extremely sharp beam profile for surface & depth marking
- Single phase power requirement
- Stable laser beam quality for better marking quality
- Automatic numbering of barcodes
- Adjustable marking depth
- Suitable for automatic production
- High efficiency
- Fine marking lines
